

We are delighted to launch our fully asynchronous training suite for Teaching Assistants for 23/24. The [Developing TA Expertise](#) programme is designed to develop teaching assistant expertise and confidence in the classroom. An online, self-paced resource, it can be accessed by individuals or used as a group inset session.

The course consists of 13 modules, each with a video tutorial, resources and a quiz. Your teaching assistant team can complete all modules or pick and choose which suit them best. A bank of useful supporting resources is available for each unit to allow personal learning to turn instantly into professional practice.

The modules include:

- Assessment for learning strategies
- Behaviour
- Covering a class at short notice
- KS1 and KS2 grammar
- Stronger sentences at KS1 and KS2
- Supporting phonics
- Supporting SEND pupils in the classroom
- Supporting vocabulary instruction
- CPA in maths
- Questioning for Maths
- Supporting calculation

It is priced at £350+VAT or 3 credits per school and can be accessed by all the teaching assistants in the school.

To sign up, please complete the booking form on the course information page and the online course link will be emailed to you to share with your team. To read more and book [click here](#).

#### **Testimonials from teaching assistants who have completed the course...**

*"I found the entire course really helpful, I loved hearing different strategies that people use across different settings. The variety of resources discussed to try out and having the option to download things from the course has been very useful too."*

*"Good content, knowledgeable instructors and easy access at a suitable time for me."*

*"I liked being able to download the resources and use these in class as well as go back to the videos if I feel I need to refresh myself on something later down the line."*

*"It was very helpful to see different strategies of teaching demonstrated across the subjects. There was a plethora of information provided."*
